Gupta sir , Mukhopadhyay sir
what type of vessel - intro

Question. Ice class , notations , Polar code , structural features

Question. How will you maintain- carry on IOPP , survey , other x ques (he worded the ques very strangely)

Question. ORB - wrong entries - how will you make sure entries are correct (he meant bunkering details)

Question. Fund - various tiers

Question. GA - examples -

Question. ME LO comsumption increased all of a sudden

Question. PSC - why - if FS is there - single most important item in ER w.r.t detainable deficiency

Question. FSI inspection- importance , frequency

7718065806

Question. IACS - purpose,

Question. Rest hours violations- short voyage- what would you do ?

Question. Drydock in detail

[Forwarded from Sabyasachi Palita]

External - Mr. Gupta and Internal Mr. Mukhopadhyay

Attempt-1

Question. ISPS Implementation in new ship and role as CE? What certificates.

Question. What is MLC? How minimum wages are decided.

Question. Role of flag state in MLC/

Question. There is collision with another vessel around machinery space area. What is ur action as CE?

Question. Dg crankshaft damaged and to be replaced. What u will do and how will u prepare for insurance claim?

Question. What is CBM?

Question. What is CSR/ why it came and what all contents?

23.06.21

External- Mr Gupta and Internal-Mr mukhopadhyay

Question. Ism code why, purpose

Question. How will you implement ISM as chief engineer. Scenario-new ship to company how to proceed.

Question. Class survey types, renewal survey. when exception is given.

Question. Tailshaft TMON notation requirement / Survey requirement

Question. CMS requirements. Difference between PMS and CMS. Why CMS advantage over PMS

Question. Unseaworthy and unsafe definition and difference. How by seeing u can say it is unsafe ship.

Question. Master's review

Question. MLC 2006 salient features .How min wages is decided. Which all party involved in wage deciding.

Sep

[Forwarded from kartikanil]

Orals at Dgs kanjurmarg

Date 23 Sep 2019

External two guys ,don't know there name initially.

One was Mr Gupta other don't know his name.

Internal Mr vikrant rai

Started with general checks,admit card ,cdc check,back ground, types of ships,experience

1. Critical equipment as per ism,how to identify
- 2.isps implementation on new aquistion ship and XQ ssa,ssp
- 3clc in detail
- 4.out of 3 generator,1 out of commission,will u take over,what u will u check.
- 5.Loadline assignment ,how it is assigned ?
- 6.esp in detail

Other external came in between

- 1.PTO/PTI
- 2.suspension of class /withdrawal of class

7718065806

<https://alfidelfi.com>

7718065806

3 grounding in way of engine room what action

4 iopp renewal survey preparation

5.orb entries

[Forwarded from Siddey Shirodkar]

19 09 2019

Ext Gupta.. Int Vikrant Rai.

1) ISM implementation on new ship.

2) DD preparation as CE

3) TMON.. What all there in the file.

4) Scopic

5) rest hours not complying action as chies engineer

Was not able to satisfy. He kept stressing company not listening.. Even after Master review.. And all other actions

6) flag state duties

7) Scope of surveys.. Int survey interval and how done.. Annual.. Renewal..

8)grounding in way of engine room.

9)Documents as per MLC 2006.. I was stating all the documents.. Then he asked what abt certification...?

7718065806

[**https://alfidelfi.com**](https://alfidelfi.com)

7718065806

Vikrant rai

Why scopic needex

How to close NC.. Here specifically he wanted.. why technique.. Asto why it is occurring..

Royston Dsouza

Dgs,Gupta sir and barik sir

1) Isps implementation on new ship.

Contents of CSR. Certificates issued

2)ME FO consumption high action as chief engineer

3)One AE out of operation ,have to take over ,steps as chief engineer.

Answered as per rajiv sir.

4)ME turbocharger out of operation, action as chief engineer to present H and M claim.

5)CMS why is it required

6) PMS implementation on onboard as chiefengineer

7718065806

<https://alfidelfi.com>

7718065806

- 7)No compliant fuel available at port steps to be taken
- 8)Collision in way of engine room steps as chief engineer

Second round Barik sir

- 1) Alternative fuels,which is better
- 2) Which takes precedence Safety or security and where is it mentioned
- 3)Non compliant fuel steps to take, Details of Fonar form
- 4)Latest regulations on lifeboats.
- 5)If vessel is carrying Non persistent oil and spillage occurs,will CLC cover if not which.

Abhishek Roy, [22.07.19 18:34]

Surveyors- internal Mr. Kamath, external mr. Gupta

Attempt no. 1

result - Pass

Type of ships done-LPG carriers

Company right now employed with - stenna bulk- northern marine,

He asked about recent stenna oil tanker ship capture by iran navy, the stenna impero. I said it is sad that we have to go through this also.

7718065806

[**https://alfidelfi.com**](https://alfidelfi.com)

7718065806

He asked what will you do in this scenario- i said immediately inform flag state, port state, p&I, follow contingency plan, as a CE only follow what is ordered of, don't be hero.

2- on the basis of this please elaborate ISPS implementation on a new ship, documents under ISPS

3- TMON notation, meaning, what we record.

4- total experience from class 4 in months, then asked if Main engine system oil consumption increasing too much, why

5- after take Over outgoing CE informs one out of the three gennys not in order, my actions

6- difference between port, flag, coastal state.

7- what to do in case ship has non compliant fuel, FONAR, LOTS OF cross questions, discussion, who to blame and all for non compliant fuel

8- ESP code. I said i am not proficient in this as i have not done tankers or bulkers just told basic stuff

9- in case of grounding actions as Chief engineer

After this they said to have lunch and come back when called in. After 2.5 hours both of them called me in and said you are pass. Both of them gave time to answer. All are normal questions.
